

Elementary-Master's Aspiring Teacher Alternative Certification (ATAC) and District-Based Alternative Certification (DBAC) Program.

Not all teachers' backgrounds are the same

We know that not everyone follows the same path to a career in education, which is why we've created transition programs that help you achieve your goal of becoming a teacher—regardless of your background.

Elementary Education Licensure Programs

We offer the Elementary-Master's Aspiring Teacher Alternative Certification (ATAC) or District-Based Alternative Certification (DBAC) program. This program is designed for someone who is interested in becoming a licensed teacher. The Elementary ATAC/DBAC program (K-6), begins once a year during the Fall semester. Currently, classes are being offered in-person and online. The ATAC/DBAC program is 24 credits; students who receive a (B) in their classes can apply 18 credits to the Master's degree in Elementary Education. The student teaching/field experience is coordinated by the program faculty.

Please be advised: The DBAC program is designed for students who are affiliated with one of our district partners or a student who is currently employed by a school district/corporation. Students in the DBAC program, complete courses in the evening, in a designated school district, and they may also complete courses online.
