Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Enrollment and Program Completers

2019-20 Total	
Total Number of Individuals Enrolled	129
Subset of Program Completers	28

Gender	Total Enrolled	Subset of Program Completers
Male	23	10
Female	106	18
Non-Binary/Other	0	0
No Gender Reported	0	0
Race/Ethnicity	Total Enrolled	Subset of Program Completers

Native Hawaiian or Other Pacific Islander	0	0
White	79	14

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	2	1
No Race/Ethnicity Reported	4	2

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

>> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2019-20.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

☐

No teachers prepared in academic year 2019-20

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2019-20. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Do participants earn a degree upon completion of the program?

- ☐ Yes
- ☒ No

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(§205\(a\)\(1\)\(A\)\(iii\); §206\(b\)\)](#)

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- ☒ Yes
- ☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- ☒ Yes
- ☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- ☒ Yes
- ☐ No
- ☐ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- ☒ Yes
- ☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- ☒ Yes
- ☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- ☒ Yes
- ☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- ☒ Yes
- ☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

IUPUI is recognized as a leader in urban education. Students are prepared according to the standards established by the Indiana Department of Education and national professional organizations. In addition, students are immersed in programs of study that challenge them intellectually with new models of instruction and explorations of diversity. All students spend significant time in community schools where they learn the importance of social justice and democratic practices. They learn to tap the wealth of assets in Indianapolis as they hone their expertise as discipline-based teachers and passionate professionals. The School of Education is committed to preparing teachers who want to make a difference and have the knowledge and skills to do so.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

b. use technology effectively to collect data to improve teaching and learning

- ☒ Yes
- ☐ No

c. use technology effectively to manage data to improve teaching and learning

- ☒ Yes

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All prospective teachers must complete coursework and internship experiences that includes learning to use technology to promote learning through equitable and inclusive practices supported by the ISTE Standards for Educators embedded within it. Students learn how to use, select, and integrate technology into learning experiences. Students learn the skills needed to incorporate technology into the classroom setting beyond using computers for research while understanding the commitment needed for preparing these tools of education and to use them to support inclusion, equity, and justice in the classroom. Prospective teachers also include coursework in which they are introduced to the principles and standards of Universal Design for Learning and the role that technology plays in supporting the UDL principles.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Candidates pursuing initial general education licensure are required to take a special education course, K553: Classroom Management and Positive Behavior Support. The course addresses a wide range of skills and strategies to prepare general education teachers to support students with IEPs in inclusive general education classes. In addition, student teachers are placed in school classrooms that include students with IEPs. Their student teaching experiences require them to co-plan and co-teach with special educators, use Universal Design for Learning to plan inclusive lessons, attend and participate in IEP Case Conferences, demonstrate classroom management and positive behavior support strategies, and more. The following course topics and competencies are addressed in K553: Instructional Strategies to Support Learners with IEPs Essential Questions: ~ What evidence-based instructional strategies support various learners with IEPs? ~ What grouping, differentiation, accommodations, and other considerations must be addressed when planning lessons? Instructional Strategies to Support Learners with IEPs: Collaborative Teamwork and Co-teaching Essential Questions: ~ How do schools configure staff for collaborative teaching and support? ~ What forms of collaboration have evolved in response to inclusive practice and how do these roles affect educators' positions and relationships? ~ What does it take to engage in effective collaborative teamwork? Using Technology to Enhance Teaching and Learning Essential Question: ~ What technology tools can be used to support teaching and learning and address physical, sensory, communication, cognitive, and behavior needs of students?

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Candidates pursuing initial general education licensure are required to take a special education course, K553: Classroom Management and Positive Behavior Support, that addresses the following competencies related to general education teacher roles and responsibilities as members of IEP teams: Individualized Education Plans and Case Conference Committee Meetings Essential Questions: ~ What is an IEP and Case Conference Committee meeting? ~ What are the roles and responsibilities of general education teachers in IEP Case Conference Committee meetings? ~ What is inclusive education (and what is it NOT)? Instructional Strategies to Support Learners with IEPs: Transition Planning and Services Essential Questions: ~ What is a Transition IEP and exemplary transition services? ~ What are the Transition mandates of IDEA? ~ How can teachers promote student self-advocacy and self-determination, including student involvement in their Transition IEP meetings? ~ What are the outcomes of special education services?

c. Effectively teach students who are limited English proficient.

Across the courses in our program, candidates learn to conduct interviews and needs assessments with students and their families to understand their background, experiences, interests, previous schooling, strengths and needs. For example, these needs assessments focus on (a) content knowledge using the instructional conversion and multiple ongoing classroom assessment tools; (b) English proficiency using second language acquisition concepts (communication, pattern, and variability) and principles (input, interaction, stages of development, errors and feedback, types of proficiencies and performances) as well as WIDA resources to assess current levels of proficiency, appropriate expectations, and key uses and scaffolding for instruction; (c) student interests using a teacher-tailored literacy inventory; and (d) learners' cultural identities. Candidates learn about identification, assessment, and placement processes for English Learners in local sites. They study the law and policies governing the education of English Learners and completed an advocacy project that invites them to analyze programs, policies, and practices in local sites. In field placements they observe students and mentor teachers, analyze elements of instruction to learn from practice, and then learn to plan, implement, and assess lesson plan effectiveness themselves based on the quality of student work and solicited feedback. These lessons are differentiated based on appropriate expectations for reading, writing, listening, and speaking skills in the target language. Each activity in our program is designed to support candidates to attend simultaneously to learner culture, language, and learning. To this end, students are asked to design learning activities that infuse collaboration, language use, contextualization, complex thinking, dialogic learning, and civic and democratic engagement in their assessment of student needs and their ultimate instructional design.

2. Does your program prepare special education teachers?

- ☒ Yes
☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

The initial licensure program for the initial programs at the graduate level offer the option of pursuing Special Education certification in Mild Intervention. The School of Education requires that candidates earn a general education license – elementary or secondary education - and add special education (Mild Intervention) to their general education license. To add Special Education certification, candidates are required to take the following courses: K505: Introduction to Special Education K548: Families in School and Society K525: Assessment & Instruction I K553: Classroom Management and Positive Behavior Support (see above) K541: Transition Across the Lifespan K565: Collaboration & Consultation K510: Technology Applications in Teaching Student Teaching: Mild Intervention (8 weeks)

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Several courses address Individualized Education Plans (IEPs) and Case Conference Committee (CCC) meetings as follows: • K505: Introduction to Special Education addresses IDEA and the legal mandates of IEPs and CCCs. • K548: Families in School and Society addresses how teachers need to collaborate with parents/guardians to co-develop the IEP and co-lead the CCC. The course also addresses competencies for working with culturally and linguistically diverse families, including how to ensure that interpreters or other necessary accommodations and supports are provided. • K525: Assessment & Instruction I addresses how to write IEP instructional goals and objectives, how to obtain and document assessment data, how to monitor student progress, and how to report this information using Indiana's IIEP system. • K553: Classroom Management and Positive Behavior Support (addressed above) • K541: Transition Across the Lifespan addresses how to plan for student transitions from preschool to elementary school, elementary to middle school, middle school to high school, and high school to postsecondary education and post-school life. Students learn to write Transition IEPs, facilitate student self-determination and self-advocacy, provide transition services, and connect with appropriate adult services and supports. • K565: Collaboration & Consultation addresses how to work with all members of the instructional team to meet students' needs, including general education teachers, therapists, paraprofessionals, and other team members. • K510: Technology Applications in Teaching addresses the wide array of instructional and assistive technology to enhance teaching and learning for students with IEPs. • Student Teaching: Mild Intervention (8 weeks) provides extensive opportunities for interns to "walk the walk" of a special education teacher under the supervision of an experienced mentor teacher. Candidates are required to demonstrate Council for Exceptional Children (CEC) competencies for special education teachers.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

At IUPUI, students who are learning to teach are called “interns,” because they do so much more than academics. Interns learn to collaborate and function as part of a team. From day one, each group of interns learns to be flexible—to coordinate schedules, manage complex tasks, and handle multiple demands simultaneously. At IUPUI, interns go through programs in cohort groups because it takes time for people to develop the personal interaction skills needed as a professional educator. Cohort groups also come to share a common history of experiences and make good use of the strengths they have as a group. Alternative certification candidates work with practicing teachers in their classrooms. The mentor teachers often host two IUPUI interns at a time. Throughout the program, the mentor teachers and interns function as a team planning lessons, observing each other’s teaching, co-teaching, providing critiques, and assessing students’ learning. Mentoring also occurs through on-line networks and faculty facilitated seminars. The interns also are assigned coaches, who serve as a liaison between the partnership schools and the School of Education. The coaches work with the mentors and the interns in the schools. Candidates receive preparation in the use of Universal Design for Learning (UdL) and Differentiated Instruction. They are given opportunities to develop knowledge/skills regarding Response to Intervention as well as opportunities to develop an understanding of equity and social justice issues related to students of color.
