Section 6. Areas for Improvement, Weaknesses, and/or Stipulations

Summarize EPP activities and the outcomes of those activities as they relate to correcting the areas cited in the last Accreditation Action/Decision Report.

Section 7. Accreditation Pathway

Continuous Improvement. *Summarize progress toward target level performance on the standard(s) selected.*

In the 2015 EPP Annual Report form, under section 6 all the areas for improvement are listed on the Bloomington report but none show up on the IUPUI form because during our last accreditation visit we were a core campus and had joint accreditation. . During the next visit in 2017, the two campuses will seek individual accreditation. The first AFI for the last visit belongs just to IUPUI while the second applies to both campuses.

1. The unit does not systematically collect candidate data in the advanced programs at IUPUI (Indiana University Purdue University, Indianapolis) campuses. (ADV)

2. Completer and employer surveys at the advanced level do not verify candidate knowledge, skills, dispositions, and impact on student learning. (ADV)

The School of Education at IUPUI has develop a unit assessment system for its advanced programs. Each system includes data from state tests, assessments completed in courses, evaluations of internships, and assessment of the candidates' impact on student learning as well as data from graduate surveys. The unit is now in the second or third cycle of collecting data for most of these assessments. The Educational Leadership program resubmitted a SPA report on March 15, 2015. The advanced ENL program will submit a program review in September 2015 while the counseling program is preparing to seek CACREP accreditation as a separate unit from Bloomington.

The IU School of Education at IUPUI has created and implemented surveys for completers who have been graduated for one and three years. Questions address the skills, knowledge, and dispositions faculty deem important for graduates of the respective programs and are aligned with the Principles of Teacher Education and appropriate SPA standards. The EPP decided to use non-

IUPUI email addressed to contact graduates to improve the return rate on each of these surveys since information from the state is not always available or accurate. This has helped increase the return rates on graduate surveys with return rates around 25% which was an increase from earlier surveys which had about a 12% return rate. The EPP will still work to find ways to continue to increase the return rates.

Currently the EPP plans to pursue the continuous improvement pathway with movement toward target for Standard 5. The EPP has recently hired a new tenure-line faculty in elementary literacy and is in the process of hiring a new visiting faculty in special education. Clinical faculty have been encouraged to pursue long-term status by going up for review. A work-load document has been created to examine equity and productivity of all faculty. Merit review procedures have been reviewed and revised as have Tenure and Promotion procedures. CUME continues to work to support faculty with their grants and research and to provide relevant professional development. Emeritus faculty are supporting events to involve faculty and the community in discussions about educational topics and reform.

Section 8: Preparer's Authorization
