## Supervised Clinical Experience

**Note:** The clinical experience requirements in this section are preloaded from the prior year’s IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2021-22. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

All teacher education candidates complete early field experiences during Blocks I, II, and III. They do 16 weeks of student teaching during Block IV. Cohorts of candidates are placed in partnership schools for their clinical experiences for the early childhood and elementary programs. The EPP is transiting into having more faculty provide the supervision during student teaching than in the past when adjuncts served as coaches.

# Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

## Enrollment and Program Completers

2021-22 Total	
Total Number of Individuals Enrolled	521
Subset of Program Completers	178

Gender	Total Enrolled	Subset of Program Completers
Male	84	32
Female	437	146
Non-Binary/Other	0	0
No Gender Reported	0	0
Race/Ethnicity	Total Enrolled	Subset of Program Completers
American Indian or Alaska Native	0	0
Asian	30	7
Black or African American	26	12
Hispanic/Latino of any race	55	13
Native Hawaiian or Other Pacific Islander	0	0
White	386	139

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	22	6
No Race/Ethnicity Reported	2	1

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Academic Major

THIS PAGE INCLUDES:

>> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

☐ No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

### What are CIP Codes?

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(\\$205\(a\)\(1\)\(A\)\(iii\); \\$206\(b\)\)](#)

## Program Assurances

**Note:** This section is preloaded from the prior year’s IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

☒ Yes

☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

☒ Yes

☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

☒ Yes

☐ No

☐ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

☒ Yes

☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

☒ Yes

☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

☒ Yes

☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

☒ Yes

☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

The teacher education program at IUPUI has a central mission to prepare teachers to work in urban schools. Teacher candidates do their early field and student teaching experiences in urban settings where they work with a diverse K-12 student population. Data indicate that approximately 63-65% of our graduates entering the teaching profession are hired by urban school districts. All special education and ENL students must complete either a secondary or elementary program in conjunction with their addition program to ensure they have content knowledge in the core academic subjects.

# Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

## Report Progress on Last Year’s Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

The EPP has a goal of preparing 8 secondary mathematics teachers during the 2021-2022 academic year.

3. Did your program meet the goal?

- ☐ Yes
- ☒ No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

A new Assistant Dean for Recruitment position was created to coordinate recruitment efforts all all undergraduate teacher education initial programs.

6. Provide any additional comments, exceptions and explanations below:

10. Describe your goal.

The goal for 2023-2024 is to prepare 30 special education teachers.

# Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

# Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period.  [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

d. use technology effectively to analyze data to improve teaching and learning

☒ Yes

☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All prospective teachers must complete EDUC W200 or an equivalent technology course with a grade of "C" of higher prior to entering the teacher education program. This course provides an introduction to instructional design and technology supported by the ISTE Standards for Educators. Students learn how to use, select, and integrate technology into learning experiences. This course is a study of representative topics in technology in education. Students learn the skills needed to incorporate technology into the classroom setting beyond using computers for research while understanding the commitment needed for preparing these tools of education and to use them to support inclusion, equity, and justice in the classroom. The course also provides an introduction to the principles and standards of Universal Design for Learning. Prospective teachers are expected to successfully design a scaffolded and supportive learning environments based on UDL principles and to curate a set of lessons that include technology use. In many teacher education courses, students utilize digital tools to share information that they are learning. They also learn about using technology in the classroom while student teaching. They learn to use laptops, Smart boards, media and software, and electronic assessments including report cards. The School of Education continues to work with their P-12 schools partners to provide technology and technology support for candidates and teachers in the field. The School has a designated technology professor who oversees the design of the technology strand for the teacher education programs.

Provide the following information about your teacher preparation program.

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

All undergraduate students pursuing initial general education licensure are required to take a special education course, K306 (Secondary) or K307 (Elementary): Teaching Students with IEPs in Inclusive Classrooms. The course objectives are provided here: 1. Understand issues of social justice, equity, and inclusive education and be able to advocate for a vision of general education that is fully inclusive of students identified with dis/abilities. 2. Understand the evolution of special education: its social and political origins, as well as past and current policies, laws, and practices. 3. Become familiar with the process and consequences of determining students’ eligibility and placement in special education, of labeling students with dis/ability labels, and descriptions of each label. 4. Move beyond understandings of dis/ability as an absolute “condition” and consider dis/ability as a social construction. 5. Understand the Individualized Education Plan (IEP) process, issues and practices related to Least Restrictive Environment (LRE) decisions, and how to participate as an active member of Case Conference Committee teams and meetings. 6. Engage in collaborative partnerships with students, parents/caregivers, colleagues, community members, and local agencies to support the needs of students identified with dis/abilities. 7. Describe issues of overrepresentation of students of color in special education, as well as the disproportionate representation of students of color with IEPs who are suspended and expelled. 8. Design and implement an array of pedagogical teaching and learning approaches for all middle school learners, including students with IEPs, within a Universal Design for Learning (UDL) framework. 9. Know how to provide individualized accommodations, adaptations, curriculum modifications, and technology to meet the diverse needs of students. 10. Describe and demonstrate how to create inclusive, equitable, and pro-social classroom communities, including the use of proactive classroom facilitation (“management”) and positive behavior support practices. In addition, students have field experiences in public school classrooms that include students with IEPs. They are required to develop and teach lesson plans that are universally designed and culturally relevant.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

As indicated in the K306/K307 course competencies above, undergraduate students pursuing initial general education licensure learn about the Individualized Education Plan (IEP) process, issues and practices related to Least Restrictive Environment (LRE) decisions, and how to participate as an active member of Case Conference Committee (CCC) teams and meetings. In addition, students are encouraged to participate in at least one CCC meeting during their field experiences and student teaching.

#### c. Effectively teach students who are limited English proficient.

Across the courses in our program, candidates learn to conduct interviews and needs assessments with students and their families to understand their background, experiences, interests, previous schooling, strengths and needs. For example, these needs assessments focus on (a) content knowledge using the instructional conversion and multiple ongoing classroom assessment tools; (b) English proficiency using second language acquisition concepts (communication, pattern, and variability) and principles (input, interaction, stages of development, errors and feedback, types of proficiencies and performances) as well as WIDA resources to assess current levels of proficiency, appropriate expectations, and key uses and scaffolding for instruction; (c) student interests using a teacher-tailored literacy inventory; and (d) learners’ cultural identities. Candidates learn about identification, assessment, and placement processes for English Learners in local sites. They study the law and policies governing the education of English Learners and completed an advocacy project that invites them to analyze programs, policies, and practices in local sites. In field placements candidates observe students and mentor teachers, analyze elements of instruction to learn from practice, and then learn to plan, implement, and assess lesson plan effectiveness themselves based on the quality of student work and solicited feedback. These lessons are differentiated based on appropriate expectations for reading, writing, listening, and speaking skills in the target language. Each activity in our program is designed to support candidates to attend simultaneously to learner culture, language, and learning. To this end, candidates are asked to design learning activities that

infuse collaboration, language use, contextualization, complex thinking, dialogic learning, and civic and democratic engagement in their assessment of student needs and their ultimate instructional design.

## 2. Does your program prepare special education teachers?

- ☒ Yes  
☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

### a. Teach students with disabilities effectively

The initial licensure program for undergraduate students offers the option of pursuing Special Education certification in Mild Intervention. The School of Education requires that students earn a general education license – elementary or secondary education - and add special education (Mild Intervention) to their general education license. To add Special Education certification, undergraduate students are required to take the following courses: K306 or K307: Teaching Students with IEPs in Inclusive Classrooms K448: Families in School and Society K426: Assessment & Instruction I K453: Classroom Management and Positive Behavior Support (see above) K441: Transition Across the Lifespan K465: Collaboration & Consultation K420: Technology Applications in Teaching Student Teaching: Mild Intervention (8 weeks)

### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Several courses address Individualized Education Plans (IEPs) and Case Conference Committee (CCC) meetings as follows: • K306/K307 addresses IDEA and the legal mandates of IEPs and CCCs. • K448: Families in School and Society addresses how teachers need to collaborate with parents/guardians to co-develop the IEP and co-lead the CCC. The course also addresses competencies for working with culturally and linguistically diverse families, including how to ensure that interpreters or other necessary accommodations and supports are provided. • K426: Assessment & Instruction I addresses how to write IEP instructional goals and objectives, how to obtain and document assessment data, how to monitor student progress, and how to report this information using Indiana's IEP system. • K453: Classroom Management and Positive Behavior Support (addressed above) • K441: Transition Across the Lifespan addresses how to plan for student transitions from preschool to elementary school, elementary to middle school, middle school to high school, and high school to postsecondary education and post-school life. Students learn to write Transition IEPs, facilitate student self-determination and self-advocacy, provide transition services, and connect with appropriate adult services and supports. • K465: Collaboration & Consultation addresses how to work with all members of the instructional team to meet students' needs, including general education teachers, therapists, paraprofessionals, and other team members. • K420: Technology Applications in Teaching addresses the wide array of instructional and assistive technology to enhance teaching and learning for students with IEPs. • Student Teaching: Mild Intervention (8 weeks) provides extensive opportunities for interns to “walk the walk” of a special education teacher under the supervision of an experienced mentor teacher. Students are required to demonstrate Council for Exceptional Children (CEC) competencies for special education teachers.

### c. Effectively teach students who are limited English proficient.

Across the courses in our program, candidates learn to conduct interviews and needs assessments with students and their families to understand their background, experiences, interests, previous schooling, strengths and needs. For example, these needs assessments focus on (a) content knowledge using the instructional conversion and multiple ongoing classroom assessment tools; (b) English proficiency using second language acquisition concepts (communication, pattern, and variability) and principles (input, interaction, stages of development, errors and feedback, types of proficiencies and performances) as well as WIDA resources to assess current levels of proficiency, appropriate expectations, and key uses and scaffolding for instruction; (c) student interests using a teacher-tailored literacy inventory; and (d) learners' cultural identities. Candidates learn about identification, assessment, and placement processes for English Learners in local sites. They study the law and policies governing the education of English Learners and completed an advocacy project that invites them to analyze programs, policies, and practices in local sites. In field placements candidates observe students and mentor teachers, analyze elements of instruction to learn from practice, and then learn to plan, implement, and assess lesson plan effectiveness themselves based on the quality of student work and solicited feedback. These lessons are differentiated based on appropriate expectations for reading, writing, listening, and speaking skills in the target language. The SOE continues to collect data to inform decisions about candidates and programs. All programs are either nationally recognized by SPAs or the state, or awaiting feedback from state reports. The School of Education has redesigned key assessments and rubrics to reflect the InTASC, SPA, and CAEP standards. The EPP continues it work to establish validity and reliability for the EPP-created assessments. All teacher education programs address: \* Preparation in the use of Universal Design for Learning (UdL) and Differentiated Instruction \* Understanding of equity and social justice issues related to students of color and students with special needs - i.e., Positive Behavior Support and Interventions (PBIS), culturally responsive pedagogy, overrepresentation in special education; disproportional representation in school suspensions and expulsions. \* Skills to collaborate as a member of an instructional team. \* Skills and dispositions to collaborate with families as part of the IEP and academic and social/emotional/behavioral support efforts. \* Understanding and application of Response to Intervention (Rtl) responsibilities and approaches. \* Field experience and student teaching in inclusive classrooms and expectations to meet the needs of all learners. Candidates completing the special education dual program complete: \* Required course on Families in School and Society focused on working with families in supportive, culturally responsive ways. \* Required course on Classroom Management and Positive Behavior Supports. \* Required course on Collaboration and Consultation Strategies, including working with all team members to co-plan IEPs, units, and lesson plans, co-teach, and implement and evaluate effective teaching and learning strategies. \* Required course on Assessment and Instruction focused on Universal Design for Learning, Differentiated Instruction, instructional adaptations, modifications, and accommodations, and formative and summative assessments. \* Required course on Technology Applications for Teaching and Learning, including a focus on the use of technology to enhance access, teaching, and learning. \* Required course on Transition Across the Lifespan, including collaborative strategies to successfully support students as they move from preschool to adulthood and acquire needed services and supports from various organizations and entities in schools and communities.
