New Courses

Q612 Topical Seminar in Science Education – Required for doctoral students in science education. Study and discussion of current topics and issues in science education might include history and philosophy inquiry, assessment, research and teacher education. May be repeated for up to 18 credit hours.

Course Change Requests

J653 – The Nature of the Social Studies - Change Course number M653 to J653. – Exploration of historical foundations, ideological views, and current issues in social studies. Focus on ongoing debates about aims and purposes of social studies. Consideration of trends in and approaches to social studies curriculum and instruction in elementary and secondary schools.

Justification for change – Social studies was changed from a separate program to an area of study within Curriculum Studies. This course needs a “J” number that reflects its approval as a course for a major in curriculum studies. The description was changed to correlate with the way the course is taught.
